### Description

- Perfect for couching and sewing down flat trims!
- Sew elastic without stretching behind the foot!
- Keeps trims centered beneath the needle!
- Used by sewing professionals and educators around the world!
- Fits ALL Sewing Machines with a zig-zag stitch!
- One of the 3 Creative Feet!

When couching this foot guides the trim under the needle so you can focus on where you're going instead of staring at the needle. This foot also guides ribbons, ric rac and braided trims and makes sewing elastic so simple even a 4 year old can sew it down; because you don't have to stretch the elastic from behind the foot! You can use this foot for all sizes of elastic and all type

**Includes:** Sequins & Ribbon Foot, 4 Snap-on Adaptors, Instruction Booklet.

More information

The Creative Feet Sequins & Ribbon presser foot was made to make sewing down flat trims fast and easy, without having to constantly check your needle position.

### How does it guide the trims?

The foot has a guide that keeps the trim positioned directly beneath the needle. By adjusting the guides position you're able to turn flat trims without worry about the trim not being under your needle!

### Sew elastic without stretching behind the needle!

Simply use the foot and feed dogs to hold one end of the elastic and then mark how far to stretch your elastic. This allows you to sew down elastic with one hand and minimal effort!

### Will it fit my machine?

## Other Products: Clare Rowly's Sequins and Ribbon Foot

---

Each of the Creative Feet fit all sewing machines that are capable of sewing a zig-zag stitch (virtually every machine). They simply snap on to most machines and using the adapters, included with the foot, they're able to fit all machines.

*If you don't already have one, Bernina requires you to use their low shank or snap on adapter, for their machines, which [we sell here](#) or you can purchase one from your local dealer.*
